👤 Profile

Aspiring React.js Developer with one year of experience in front-end development, specializing in React.js. Proven ability to create responsive and user-friendly web applications. Seeking a challenging position to leverage my skills and contribute to a dynamic development team.

💼 Work Experience

Front-End Developer

Abord Technical Group & Company
Remote, Bangaldesh

- Developed and maintained web applications using React.js, enhancing user experience through efficient component-based design.
- Implemented responsive design principles using Tailwind CSS and Bootstrap, ensuring optimal performance across various devices.
- Integrated Firebase for backend services, including authentication and database management
- Utilized Git and GitHub for version control and collaboration in a team setting.
- Collaborated with back-end developers to integrate RESTful APIs into front-end applications.
- Conducted code reviews and provided constructive feedback to peers to improve code quality and best practices.

⚙ Projects

Project Name: EduSity

Live-Link: *https://edusity-arman.netlify.app/*

- EduSity is a University website which is created by React.js. The website is complately responsive and user-firendly.
